

Slimline Electronic Dimmable LED Driver

Model: E40L12DC-KO / E60L12DC-KO

Electronic Dimmable | Compact | Reliable | Powerful

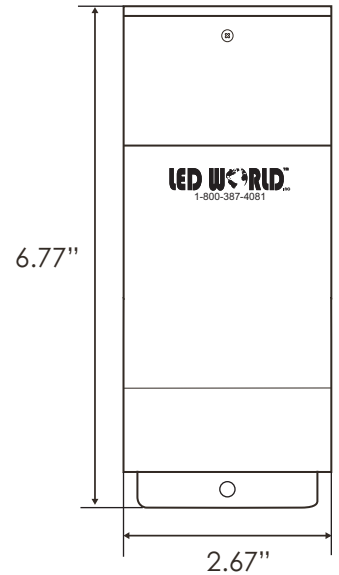

LED World's Electronic Dimmable Class 2 LED driver series come in 40 and 60 watts models. Electronic Drivers are fully dimmable with any standard TRIAC dimmer switch. These new drivers delivers smooth flicker free dimming.

Encased in a low profile aluminum enclosure, these drivers are the perfect choice for LED panels, LED Strips, LED Cove Lighting and various commercial and residential LED applications. The KO version includes a wiring compartment to enable easy-installation and eliminates the need of a J-Box.

This line of driver is IP67 rated and fully operational damp applications. The drivers are designed to operate under extreme environmental conditions. The Driver series is UL listed for use in Canada and USA and covered by 5-year manufacturer limited warranty

Features

- Dimmable with any standard TRIAC dimmer switch
- Super compact Aluminum case.
- Class 2, UL 8750 listed
- Withstands wet and salty conditions (IP67)
- Auto-reset protection for short circuits, over-voltage & over-temperature
- FCC 15 Part 2
- 12V DC True RMS

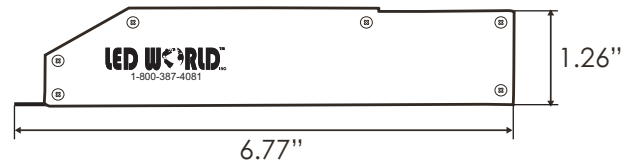

Specifications

40W E40L12DC-KO

Input Voltage	120V AC 60Hz
Output Voltage	12 VDC
Max Load	40 W
Max Continuous Load	32 W
Efficiency	>90%
Working Temperature	-30°C ~ +70°C (-22°F ~ +158°F)

60W E60L12DC-KO

Input Voltage	120V AC 60Hz
Output Voltage	12 VDC
Max Load	60 W
Max Continuous Load	48 W
Efficiency	>90%
Working Temperature	-30°C ~ +70°C (-22°F ~ +158°F)
